## ISSUE STATEMENT

The topic of this work session is described in the January 13, 2023, Work Session Request Form as follows: "To consider the question of passing (with adequate legal time) a resolution placing the ordinance banning new gas infrastructure in low rise residential on the May 2023 ballot for public consideration."

## BACKGROUND

On November 21, 2022, and continued on December 12, 2022, the City Council held a public hearing on an ordinance to prohibit fossil fuel infrastructure in new low-rise residential buildings. Low-rise residential buildings include single-family dwellings, duplexes, triplexes, quadraplexes, cottage clusters and any residential structure that is three-stories or less. The subject ordinance is attached to this Agenda Item Summary (AIS) as Attachment B. One hundred eighty-eight people signed up to speak at the public hearing, with approximately 125 people ultimately testifying on either November 21 or December 12. The minutes of that testimony is attached to this AIS as Attachment C.

On January 24, 2023, four councilors supported scheduling a work session "[t]o consider the question of passing (with adequate legal time) a resolution placing the ordinance banning new gas infrastructure in low rise residential on the May 2023 ballot for public consideration." Attached to this AIS as Attachment A is a resolution that, if approved by the City Council, would refer the question to the voters in May. Specifically, the Council's approval of the resolution would result in a May ballot measure asking Eugene voters to approve or reject new Eugene Code sections that are identical to the Eugene Code sections in the proposed ordinance set forth in Attachment B.

## COUNCIL OPTIONS:

1. Adopt the resolution set forth in Attachment A to this AIS, referring to the voters the proposed code provisions that were the subject of the November 21, 2022, and December 12, 2022, public hearing.

2. Choose to not refer to the voters the proposed code provisions that were the subject of the November 21, 2022, and December 12, 2022, public hearing.

**POSSIBLE MOTION:**

Move to adopt “A Resolution Calling a City Election on May 16, 2023, for the Purpose of Referring to the Legal Electors of the City of Eugene a Measure Adding Sections 6.695 and 6.696 to the Eugene Code, 1971, to Prohibit Fossil Fuel Infrastructure in New Low-Rise Residential Buildings,” as set forth in Attachment A.

**ATTACHMENTS**

- A. A Resolution Calling a City Election on May 16, 2023, for the Purpose of Referring to the Legal Electors of the City of Eugene a Measure Adding Sections 6.695 and 6.696 to the Eugene Code, 1971, to Prohibit Fossil Fuel Infrastructure in New Low-Rise Residential Buildings.
- B. An Ordinance Prohibiting Fossil Fuel Infrastructure in New Low-Rise Residential Buildings; and Adding Section 6.695 and 6.696 to the Eugene Code, 1971, considered at the November 21, 2022, and December 12, 2022, public hearing.
- C. Minutes of the November 21, 2022, and December 12, 2022, public hearing.

**RESOLUTION NO. \_\_\_\_**

**A RESOLUTION CALLING A CITY ELECTION ON MAY 16, 2023, FOR THE PURPOSE OF REFERRING TO THE LEGAL ELECTORS OF THE CITY OF EUGENE A MEASURE ADDING SECTIONS 6.695 AND 6.696 TO THE EUGENE CODE, 1971 TO PROHIBIT FOSSIL FUEL INFRASTRUCTURE IN NEW LOW-RISE RESIDENTIAL BUILDINGS.**

**The City Council of the City of Eugene finds as follows:**

**A.** On November 21, 2022, the City Council held a public hearing on an ordinance prohibiting fossil fuel infrastructure in new low-rise residential buildings and adding Sections 6.695 and 6.696 to the Eugene Code, 1971. One hundred eighty-eight people signed up to speak at the public hearing. At the public hearing the City Council received testimony both in favor of and opposed to the proposed ordinance.

**B.** The City Council finds it would be in the public interest to submit to the electors of the City a measure that would add new Sections 6.695 and 6.696 to the Eugene Code, 1971, prohibiting fossil fuel infrastructure in new low-rise residential buildings.

**NOW, THEREFORE, based upon the above findings,**

**BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF EUGENE, a Municipal Corporation of the State of Oregon, as follows:**

**Section 1.** A city election is called for the purpose of referring to the legal electors of the City of Eugene a measure adding new Sections 6.695 and 6.696 to the Eugene Code, 1971, to read as follows:

**“Prohibition on Fossil Fuel Infrastructure**

**6.695 Prohibition on Fossil Fuel Infrastructure – Definitions.**

For purposes of EC 6.696, the following words and phrases shall mean:

Fossil fuel. Any of a class of hydrocarbon-containing materials of biological origin occurring within Earth’s crust that can be used as a source of energy. This includes coal, petroleum or petroleum products, and natural gas.

Fossil fuel Infrastructure. Natural gas piping, fuel oil piping, or other fossil fuel piping or conveyance system within a building, that connects a source of supply to a fossil-fuel-burning appliance.

Low-rise Residential Building. Any building that has a height of three stories above grade or less, that includes one or more dwelling units, and where occupants are primarily permanent in nature (30 days or more) including but not limited to detached one- and two-family dwellings, attached single family dwellings (townhouses), manufactured dwellings, and multi-family residential buildings. This does not include a mixed occupancy building, as defined by Oregon building code, that includes a commercial use.

Natural Gas. A natural gas, liquified petroleum gas or mixture of these.

**6.696 Prohibition on Fossil Fuel Infrastructure – Prohibition and Applicability.**

- (1) Fossil fuel infrastructure is prohibited in a low-rise residential building that has never before been used or occupied for any purpose.
- (2) The City shall deny an application for a permit, or suspend or revoke an issued permit, that does not comply with this section.
- (3) This section applies to building permit applications, including those necessary to install a new manufactured dwelling, submitted on or after June 30, 2023.
- (4) This section shall in no way be construed as amending the state building code, as defined in ORS 455.010.”

**Section 2.** The City Council orders this city election to be held in the City of Eugene, Oregon, concurrently with the statewide election on May 16, 2023, in accordance with the provisions of Chapter 254 of the Oregon Revised Statutes, and the ballots shall be counted and tabulated and the results certified as provided by law.

**Section 3.** The City Recorder is directed to give not less than ten days’ notice of the city election by publication of one notice in the Register Guard, a newspaper published in the City and of general circulation within the City.

**Section 4.** This Resolution shall become effective immediately upon its adoption.

**The foregoing Resolution adopted the \_\_\_\_\_ day of February, 2023.**

ORDINANCE NO. \_\_\_\_\_

**AN ORDINANCE PROHIBITING FOSSIL FUEL INFRASTRUCTURE IN NEW LOW-RISE RESIDENTIAL BUILDINGS; AND ADDING SECTIONS 6.695 AND 6.696 TO THE EUGENE CODE, 1971.**

**THE CITY OF EUGENE DOES ORDAIN AS FOLLOWS:**

**Section 1.** The following heading and Section 6.695 of the Eugene Code, 1971, are added to provide as follows:

**Prohibition on Fossil Fuel Infrastructure**

**6.695 Prohibition on Fossil Fuel Infrastructure – Definitions.**

***For purposes of EC 6.696, the following words and phrases shall mean:***

***Fossil fuel. Any of a class of hydrocarbon-containing materials of biological origin occurring within Earth’s crust that can be used as a source of energy. This includes coal, petroleum or petroleum products, and natural gas.***

***Fossil fuel Infrastructure. Natural gas piping, fuel oil piping, or other fossil fuel piping or conveyance system within a building, that connects a source of supply to a fossil-fuel-burning appliance.***

***Low-rise Residential Building. Any building that has a height of three stories above grade or less, that includes one or more dwelling units, and where occupants are primarily permanent in nature (30 days or more) including but not limited to detached one- and two-family dwellings, attached single family dwellings (townhouses), manufactured dwellings, and multi-family residential buildings. This does not include a mixed occupancy building, as defined by Oregon building code, that includes a commercial use.***

***Natural Gas. A natural gas, liquified petroleum gas or mixture of these.***

**Section 2.** Section 6.696 of the Eugene Code, 1971, is added to provide as follows:

**6.696 Prohibition on Fossil Fuel Infrastructure – Prohibition and Applicability**

**(1) Fossil fuel infrastructure is prohibited in a low-rise residential building that has never before been used or occupied for any purpose.**

**(2) The City shall deny an application for a permit, or suspend or revoke an issued permit, that does not comply with this section.**

**(3) This section applies to building permit applications, including those necessary to**

*install a new manufactured dwelling, submitted on or after June 30, 2023.*

**(4) This section shall in no way be construed as amending the state building code, as defined in ORS 455.010.**

**Section 3.** The City Recorder, at the request of, or with the consent of the City Attorney, is authorized to administratively correct any reference errors contained herein, or in other provisions of the Eugene Code, 1971, to the provisions added, amended or repealed herein.

**Passed by the City Council this**
